

The value of a SAFARI

An African safari is a big investment and well worth it. The all-inclusive cost results in more value received than other similarly priced experiences.

Like other great luxury experiences, a safari includes a beautiful place to stay with great service. At the same cost of a beach villa, city hotel or suite with access to butler or staff you get this on an African Travel safari PLUS the dining, experiences and exclusive amenities.

Not only do you eat and drink well and enjoy the view, your safari investment includes a range of experience and access to experts. Your dollars also go to helping local communities and wildlife.
